Customer Covid 19 Update

The legal requirement to wear a face covering in enclosed public spaces will come to an end on the 19th July, however the Prime Minister has said that the government still **“Expects and recommends”** that face coverings are worn in crowded and enclosed spaces.

We will not insist on the wearing of face coverings in the communal areas of the buildings as this is a matter of your personal choice.

However, I would encourage you to please continue to wearing them in these areas as a matter of common courtesy to others.

Please be very aware that should others choose to wear a face covering, be very considerate of their wishes and respectful of the reasons behind their personal choice and please continue to socially distance and respect their personal space as required.

Currently we are operating as normal regarding phone and email orders and both collections and deliveries.

We are trying our best to dispatch orders as soon as possible but would ask if you can bear with us at this busy time.
